

Static Stitch Bag Holder

Designed by Julie A. Bolduc

This bag holder is fairly fast to make. I used the static stitch done in the round. This is done differently, you are going to turn at the end of each round to make it look like you crocheted it back and forth in rows.

RND 9-41: Rep RNDs 5-8. .

RND 42: Ch1. Join 5" ring to this last round by working 1 sc in each st around working over the ring as you work each stitch. When you get to the last 3 stitches, work over

the plastic 3/4" ring as well to use as a hanger.

Make sure the last round is on the outside. If needed, turn work inside out. Because you turned after each round, this bag holder's fabric is reversible so it looks the same no matter which side is out. Weave all ends into work. Hang your bag holder up using your little 3/4" plastic ring.
