With the 12" long end, sew the clasp to the ends.

### Center Beaded Loop.

With sewing thread and needle. Find the center of the choker on the side where you have 60 beads. Make a knot in the end of the sewing thread and make a stitch in

the center of the choker to secure it. Then string on the beads in this order. The 5mm, three 2mm, three 4mm, one 6mm, three 4mm, three 2mm. Then run your needle back through the 5mm bead and secure the end back into the choker.

**NOTE:** You might want to double up the thread to make it stronger but I didn't.
