

Wood Ring Key chain

Designed by Julie A. Bolduc

This key chain is made from a 3" wooden ring that has had a screw eye and split ring added to it. Actually this would make a great bazaar item. It is fairly quick to make and very inexpensive as well.

Materials Needed

Small amount luster sheen. Rose was used in the example.

Size C/2 2.75mm aluminum crochet hook

1 wooden ring 3" x 1/2"

power drill

1/16" drill bit

1 Screw Eye 1/2"

1 small split key ring

Yarn Thickness 2mm

Gauge: 6sc = 1"

Finished Size: 3 1/2" diam

Skill Level: Beginner

Instructions

Drill hole into wooden ring anywhere on the outside of it.

Screw the screw eye into it. Put ring onto screw eye. (You can order a ring with all of this already done if you like. Just email me for details.)

RND 1: Tie yarn onto ring just to the left of the screw eye. Sc in ring. *Ch3. 2sc in ring. Rep from * until wooden ring is completely filled. I did not count how many times. Just repeat it until you fill it up. Then join w/slst to first sc.

Fasten off and weave ends into work.

You can use worsted weight acrylic or cotton yarn and an H/8 5mm aluminum hook for faster, more bulky results.
