

# Simple Knit/Cro Sachet

Designed by Julie A. Bolduc

This sachet or pincushion is made by combining knitting with crochet. It is a very basic pattern that would be ideal for a beginner! Here is another idea you can do with this pattern. You could make it with cotton yarn, stuff some bars of soap inside, and use it as a bath scrubber. But of course you may just want to leave one side open and put in a drawstring so you can change the soap.

## Materials Needed

Small amount of two different colors of Red Heart Worsted weight acrylic yarn. Raspberry and White were used in the example.
